PSE26N SL

The EDGE Smart Design Pallet Stackers

PSE26N SL

- 2600lbs/1200kg Capacity **Li-ion**
- Perfect for light-duty applications
- Compact & light service weight
- High maneuverability
- Fast-charging Li-ion batteries
- Integrated on-board 25A charger
- Ideal for use on mezzanines
- Ultimate solution for light duty operations

DC 24V

Smart and Ergonomic Tillers

Standard For PSE26N SL

RFID Card Access is standard for PSE26N SL

RFID card provides faster access to equipment and is ideal for applications when one truck needs to be used by different operators

Vertical Driving in Confined Space

The ability to operate the unit with the tiller in the upright position allows working in confined spaces.

The tiller bar is supported by the air spring which helps to return the tiller to its vertical position without impact.

For increase of operation comfort and safety the trucks are equipped with speed reduction in turns.

Great stability and safety with its 3-point structure design

Chassis with 3+2-point structure: 1x2/2

- The drive wheel is located in the middle for better traction and stability of the stacker.
- The support wheels with suspension are located from left and right sides and provide better lateral stability to the truck.
- Straddle legs are equipped with single rollers.

Maintenance Friendly

Convenient and fast access to any component of the truck, no elements are located in areas difficult to reach. No Special tools are required.

Robustness and Performance

Steel cover

The main cover is made out of steel with thickness 2.0mm

Tiller is made of fiber glass material for high strength.

Capacity of 2600lbs with high residual value at maximum height (load center distance 23.6")

Real mast profiles are used for long life-time, no cheap bended solutions used. All directed to maintain performance of the truck during its life-cycle.

Support legs are made out of solid steel (not tube) to have enough rigidity to ensure the stability and safety.

The width of each leg is consistent which prevents possible hooking of pallets and racks when driving out from the racking system.

Adjustment of suspension

Perfect Observation

Wide mast provides perfect observation of forks, the field of view is clear and not interrupted by mast sections, cylinder or chains.

The operator can always clearly see the forks which significantly increases safety of operation.

Support legs and forks

The support legs are fixed with screws located outside of the truck's body (4 screws for each side). The position can be easily adjusted according to the customer's needs to achieve the overall width of the truck: 46.5"/50.5"/54.5" 58.3".

Forged forks are supplied for long life. Width of forks is adjustable 9.9-31.5". The truck is equipped with LBR (load back rest) as standard equipment.

Mast table PSE 26NSL

Lift Height		74	114	124	140
Collapsed Height		57	76.38	82.28	90.16
Extended Height	w/o Load Backrest	98.43	133.86	145.67	161.42
	w/ Load Backrest	113.94	149.37	161.18	176.93

Mast table PSE 12NSL

Lift Height		2000	2900	3200	3600

Extended Height	w/o Load Backrest	2500	3400	3700	4100
	w/ Load Backrest	2894	3794	4094	4494

PSE26N SL

24V 60Ah Lithium LiFePO4 battery with BMS. Lithium battery has connection terminals with screws and located inside the steel case

For PSE26N SL the charger with current 25A is used
The standard charging time is 2.5 hours
Opportunity charging is supported

The **PSE26N SL** stacker is equipped with maintenance-free 24V/60Ah LiFePO4 type Li-ion battery with fast charging and ultra-high number of charging /discharging cycles during life time; opportunity charging feature basically does not limit your operation time. The integrated BMS provides the same features as the BMS for the batteries of pallet trucks (refer to pallet truck section) .
The on-board charger with 25A current can provide full charge for less than 2.5 hours with great efficiency.

Type sheet for industrial truck acc. to VDI2198 (1KG=2.2LB 1INGH=25.4MM)

Note: English conversions are approximations. Metric conversions should be done to find true values.

A GLOBAL LEADER

NOBLELIFT is a global leader in Lithium Technology. We manufacture more than 200 categories and around 30 series of each product. Our products are designed to meet different application demands and are well accepted by our customers in more than 100 countries and regions in Europe, America, Asia, Africa and more.

Products include: sit-down forklifts, rough terrain forklifts, narrow aisle forklifts, walkie-stackers, order pickers, electric pallet trucks, scissor lifts, tuggers, scrubbers, lift tables, manual pallet jacks and more.
